It can rely on the best technology available on the market, skilled technicians and an ingenious organization, which can process orders both for small and substantial quantities, assuring high quality and deliveries on time. In this way FERBOX offers a wide selection of products in line with our modern life and our needs of more comfort, elegance, essentiality and safety.

It is this R&D department which, above all, assures to FERBOX a solid position on the international markets. In this catalogue FERBOX presented the new line of products under the trademark of DOLCI ACQUE.

This trademark was created to distinguish a production of a high quality and of a very refined design.

Gracias a la moderna tecnología que se utiliza, a los técnicos especializados y a una organización muy bien programada, Ferbox fabrica productos interamente made-in-Italy con la garantía de un producto de suma calidad.

El sector puntero de la firma es su departamento interior de diseño que sigue creando sin interrupción nuevas soluciones, aplicaciones y mejoras de productos ya presentes en el catálogo, permaneciendo en armonía con el estilo más moderno de vivir y atendiendo cada vez más a las crecientes

necesidades de confort, elegancia, esencialidad y seguridad. La calidad certificada, la flexibilidad, juntas a la atención en la elección de los proveedores, todos italianos, son la fuerza motriz de la firma que desde hace veinte años ocupa una posición importante en los mercados europeos.

Es con esta importante premisa que les invitamos a "hojear" virtualmente nuestro catálogo y empezar con Ferbox un viaje todo made-in-Italy....
