collections

Strategicamente posizionata nel cuore del Nord Est, 71Progetti è forte di un'esperienza ventennale nella produzione di componentistica in laminato. Oggi presenta diverse collezioni di porte d'arredamento sempre nuove e dall'alto valore estetico. Una struttura solida, in costante sviluppo.

Macchinari sempre più evoluti e personale qualificato fanno di 71Progetti un'azienda capace di abbinare avanzati processi industriali, con una solida tradizione artigianale.

Il Centro Ricerche è costantemente al lavoro per progettare soluzioni innovative, durevoli nel tempo, funzionali e dall'alto contenuto di design.

Located in a strategic position in the heart of north-west Italy, 71Progetti boasts two decades of experience in the production of laminated components.

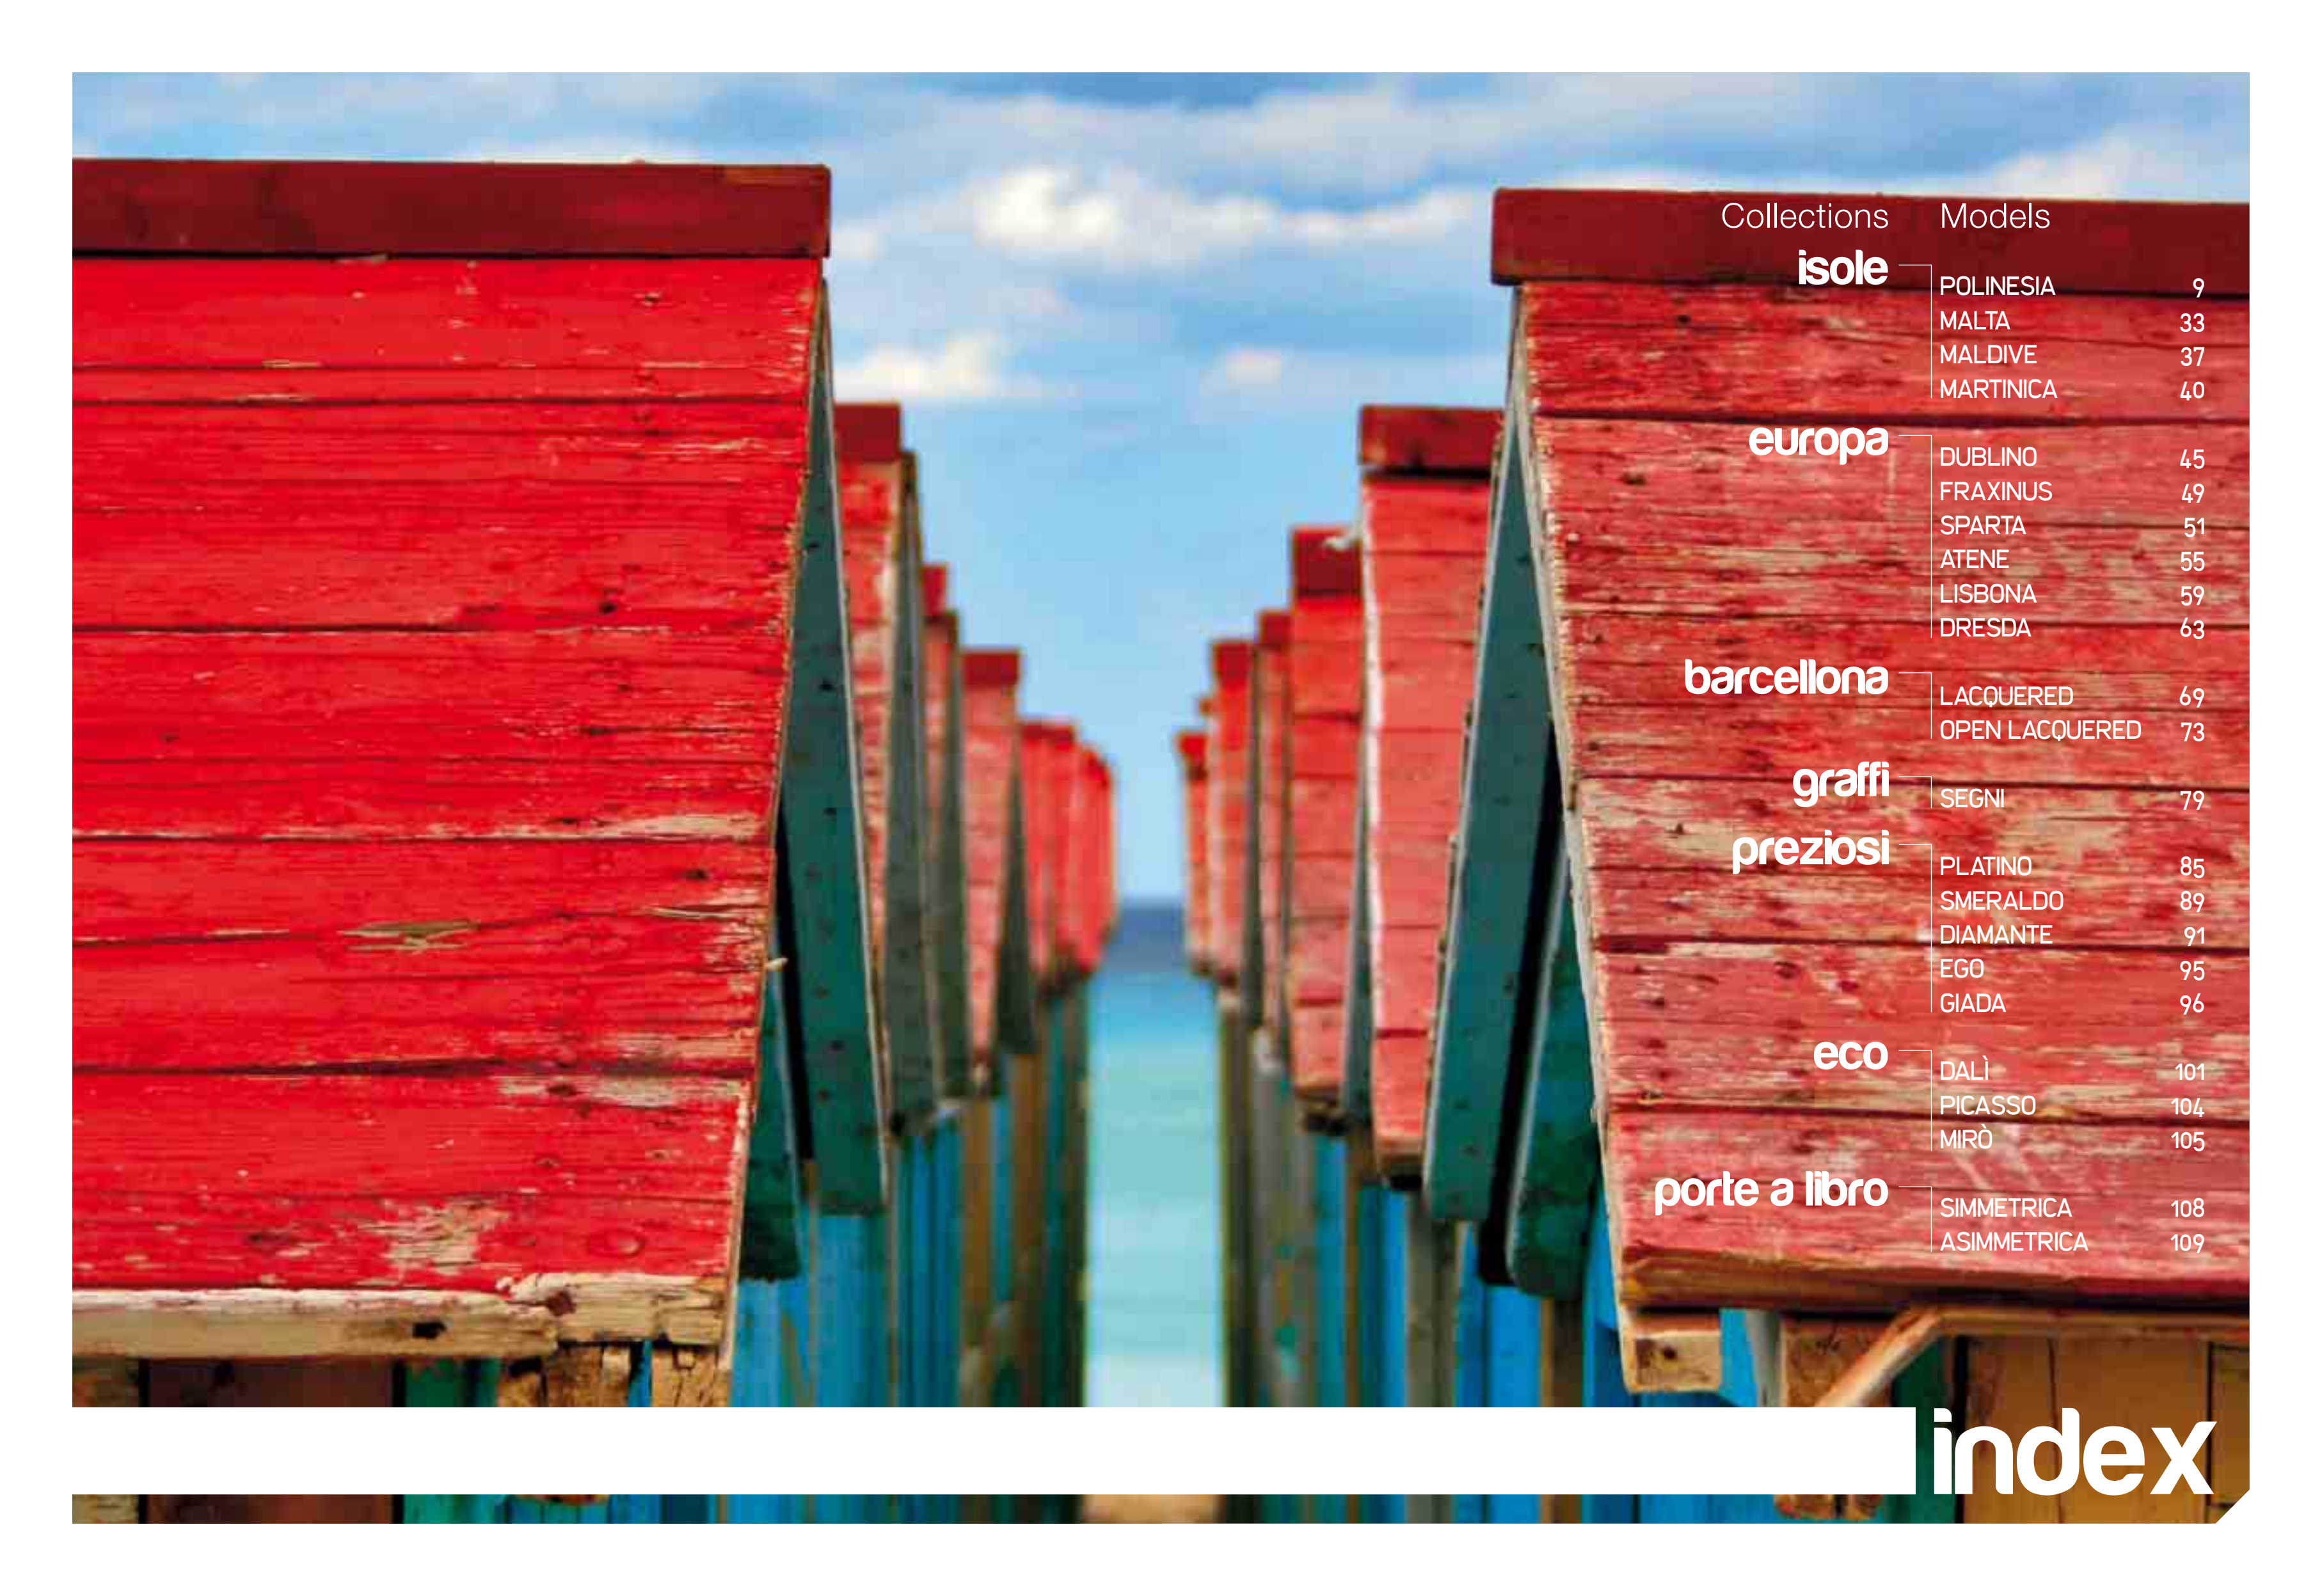

Today, the company produces numerous ranges of doors in the latest styles and with distinctive and eye-catching finishes.

A solidly-structured company which is steadily growing in stature.

With the latest hi-tech machinery and a staff of proven skill and experience, 71Progetti blends advanced industrial processes with the traditional skills of master craftsmen. The Research Centre is constantly working on the development of innovative solutions that are functional, built to last and appealing to the eye.

La novità è in ogni componente, in ogni dettaglio. A cominciare dagli stipiti. Due modelli, ognuno con differenti caratteristiche: si va dalle linee morbide, sinuose e arrotondate (Start), al design più squadrato, essenziale, pulito (Piano). L'obiettivo è esaltare le prospettive e focalizzare lo sguardo dell'osservatore sull'anta, vera protagonista.

New features can be found in every component, in every detail. Starting with the uprights: two versions, each with different characteristics, from softly rounded, sinuous lines (Start) to a more essential, clean square shape (Piano). The aim is to enhance the perspective and to focus the eye on the door - the real star of the show.
